

Drought conditions - use water wisely!

The WRASBC can help with these free services and rebate programs:

Turf Removal Rebate

The WRASBC is offering residential and commercial customers rebates in return for reducing the amount of lawn area in their landscapes and replacing with low water use landscapes. The WRASBC will rebate you up to \$1.00 for every square foot of lawn area removed (up to 500 sq'). Lawns must be well maintained before removal.

Landscape Hardware Rebates

The Water Resources Association has rebates on hose timers, rain sensors and MP Rotator irrigation nozzles and sprinkler bodies with pressure regulators. 50% rebate (up to \$100) on qualifying products.

Free Water Wise Landscape Plans

The Water Resources Association has FREE water wise landscape plans. Three different garden design concepts (\$500 value). Installing a water wise garden will save water and money, plus they require less maintenance time.

Home Water Survey (Our most popular service!)

The Survey includes: irrigation check, suggested watering schedule, leak check, showerheads and faucet aerators, high-quality hose nozzle, water softener assistance

Water Softener Assistance and Rebate Program

Have a WRASBC technician inspect and check your water softener to make sure it is set properly for hardness levels. Rebates are available for those customers transitioning to an offsite regeneration service or demolishing a self-regulating water softener that uses salt or potassium. Rebates \$250-\$300

High Efficiency Clothes Washer Rebates

These washers use half as much water as traditional top loading clothes washers. These machines also use less detergent and help us protect our groundwater supplies. Energy Star® rated clothes washers qualify. Rebate: \$100

Toilet Program (Free Toilets or Rebates)

Customers that have toilets that are 1992 or older qualify. These older toilets use from 3.5—7 gallons of water for each flush. New toilets flush from 1.28—1.6 gallons per flush. The Water Resources Association has free toilets or a \$75 rebate is available when you purchase your own.

Green Business Certification:

The WRASBC is working together with the San Benito County Chamber of Commerce, San Benito County Integrated Waste Management and PG&E to assist, recognize and promote businesses and government agencies that volunteer to operate in a more environmentally responsible way.

Additional Programs:

A Water Conservation Specialist is available to give presentations at schools, Service Clubs & local community organizations. Learn about the Water Cycle, our local water supply and water issues locally and state-wide. Fieldtrips to the reclamation plant and water treatment plant can also be arranged.

*** Special Rules & Conditions apply, call for details. Rebates are subject to available funds**
